Devoe Takes Least Gallons: Always

Paint Devoe; it's the cheapest paint in the world; never mind the price; it may or may not be more. Less gallons will paint the house; and the paint will outwear anything.

Skip wear; you've got to wait, to find that out. It covers more; you haven't got to wait to find that out.

It's the cheapest of all; no matter about the price.

M. A. Thomas, painter, Lynchburg, Va., writes: "The first job I did with your paint I estimated 37 gallons; had 12 gallons left. Since then I have used Devoe altogether and recommended it to all my customers. When I commence a job, I tack up a card reading as follows: 'M. A. Thomas, contractor; Devoe Paint.'"

That's how.
